

# **Community Sponsorship for Palestinians**

**For Gazan families  
to recover in welcoming UK communities**

## **Would you join a community team?**

For permission to bring a family to safety we need:

Teams of at least 6 near the town/village offering to host  
Ideas to find a home  
Fundraising  
Training and preparation

## **Why?**

Gaza lies in ruin. No materials or equipment are let in.  
The killing continues, everything is restricted, life  
conditions are torment. The future is prison or death.

Nearly everyone longs for a safe free Palestine. Until then  
we respect the choice of families to save their children.

## ***Join our network to help***

Website

# **MPs please start the scheme**

## **Including for Gazans – all their lives are targeted**

Government has announced Named Sponsorship but stalled it, nobody can arrive. Please release the brake.

It achieves so much:

- Puts communities in the driving seat.
- It is tried, tested and proven popular
- It unites the town. Families integrate fast.
- No pressure on local authorities' staff or budgets.
- Homes are often found outside the rental market.
- Families are known to their hosts, needs of the community and the incomers match.
- Shows the best side of Britain – Nice change

Donations

## **Every week new teams are forming**

They are offering homes, training, building community support, planning to raise funds.

**Respect their compassion.  
Let us save lives.**
